

TOWN OF WEST HARTFORD 50 SOUTH MAIN STREET
 WEST HARTFORD, CONNECTICUT 06107-2431
www.westhartfordct.gov

April 11, 2016

Dear West Hartford Resident:

Are you interested in solar power or energy improvements for your home, but not sure where to begin?

Join us at one of the Town's "Bright Idea" events to receive a FREE LED light bulb* and learn how you can save money, make your home more comfortable, and be green.

2016 "BRIGHT IDEA" EVENTS (details on next page)	
May 12	Residential Solar Presentation
June 4-5	Clean Energy Task Force Booth, Celebrate! West Hartford
June 18	Electric Vehicle Demo Day
September 26	LED Lightbulb Swap
October 1	LED Lightbulb Swap
October 12	Home Energy Solutions, Insulation & Heating Presentation
Ongoing	Channel 95 Educational Videos

In addition to the events, you can take action on your own:

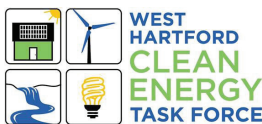

- **Watch the educational videos NOW.** Web links available at: www.westhartfordct.gov/cleanenergy
- **Schedule a Home Energy SolutionsSM visit. Visit EnergizeCT.com/hes or call 877-WISE-USE (877-947-3873).**
The visit includes energy and equipment assessments plus on-the-spot improvements, such as air sealing, energy-saving light bulbs, and more for a co-pay of \$99.
- **Install ENERGY STAR[®] certified LED light bulbs.** Did you know? A 60-watt equivalent LED light bulb uses up to 80% less electricity and now costs only \$3-4! If you use that light just 2 hours a day, it will pay for itself in 5 months through savings on your utility bill. For an instant discount, look for the Energize ConnecticutSM logo wherever you buy lighting.
- **Get a Solar Site Assessment.** Visit SolarizeCT.com, GoSolarCT.com, or EnergizeCT.com to get started. The cost of solar has dropped dramatically, and most contractors will do a site assessment for free.

Join us in making West Hartford a cleaner, greener community!
