

**DEPARTMENT OF ASSESSMENT  
INTEROFFICE MEMORANDUM**

**TO:** Matthew W. Hart, Town Manager **DATE:** January 27, 2021

**FROM:** Joseph Dakers, Sr., Director of Assessments

**SUBJECT:** 2020 GRAND LIST

The Grand List of taxable and exempt property effective October 1, 2020, in accordance with Connecticut General Statutes is completed. The 2020 Grand List reflects all changes in ownership and valuation for each property class. The total net assessed value of all taxable property prior to Board of Assessment Appeal revisions is 6,396,112,211; an increase in the net taxable list of 27,783,867 or .44% above last year's list. A modest increase as compared to the 2019 Grand List increase of .82%.

- The Real Property list increased by 11,507,391 or .2%. This year's growth partly results from completion of Ringgold Estates condominium development, three parish homes going from exempt to taxable, resulting from a sale or change in use, and unabated renovation projects by West Hartford homeowners. It must be noted that national and local reports indicated that many contractors and homeowners experienced delayed renovation projects because of building supply shortages do to the pandemic's disruption of supply-chains; this has to some degree, adversely affected our grand list growth.
- The Motor Vehicle list increased by 17,440,747 or 4%. Our total vehicle count declined from 46,748 to 44,811 or 1,937 vehicles, highly unusual. Due to the pandemic, the Department of Motor Vehicles extended registration renewal dates to late November and December of 2020. In addition, the DMV closed for ninety days earlier in the year. Registration renewals during this timeframe do not appear on the October 1, 2020 grand list. These registrations will show up on the 2020 supplemental motor vehicle list in January of 2022. This clearly had an adverse impact on our vehicle count. In West Hartford, over the last ten years, we have averaged 47,000 vehicles per assessment year.

The extraordinary item with this year's list is the rise in used car values! Many in an effort to avoid mass transportation or ubers have opted to purchase used cars. This demand nationwide along with the closure of auto plants has effectively worked towards spiking of use cars sales

and prices. With diminished supply, used car values rose as much as 30% accounting for some of our motor vehicle grand list growth. Assessment Departments statewide have similar experiences with their list. We undoubtedly will be very busy with this topic with the release of this year's motor vehicle bills.

- The Personal Property list decreased by 1,164,271 or .57% to 204,037,000. We have 28 fewer businesses in West Hartford from last October. The decline resulted from business closures outnumbering new business openings. With that, we still experienced a healthy level of capital equipment re-investment in furniture, fixtures and equipment, offsetting annual depreciation on existing assets. Our current business count is 2,719.

<b>NET TAXABLE TOTALS</b>		<b>77,988,730</b>		<b>74,913,970</b>		<b>3,074,760</b>

**Notes:**

- 1.) Reductions generally are attributable to annual depreciation on existing capital equipment and no new capital equipment purchases, coupled with asset disposals.
- 2.) In other instances new capital equipment purchases exceeded the level of annual depreciation and disposals resulting in net assessment increases.
- 3.) Audit of Outlet Broadcasting disclosed inaccurate reporting of plant asset cost that fall under real property and reported in error under personal property. Correction reflected in 2020 grand filing.
